

Pham Tan Dat

Backend Java Developer

tandatcorp.id.vn | phamtandat655@gmail.com | +84-394-047-655 | Ho Chi Minh City, Vietnam

PROFESSIONAL SUMMARY

Backend Java Developer with production experience building Spring Boot-based backend platforms across cloud services, domain registration, and healthcare systems. Strong in REST API design, service lifecycle management, database-backed business workflows, and cross-functional delivery. Improved operational efficiency by up to **40%**, reduced duplicated backend logic by **30%**, and delivered business-critical features from requirement analysis to production release.

WORK EXPERIENCE

Long Van System Solutions

Backend Java Developer

Ho Chi Minh City, Vietnam

Jun 2024 – Present

Backend Platform – Domain, Cloud, VM Lifecycle Management

- **Delivered** a production-ready **.VN domain registration and management system** covering registration, eKYC, renewal, transfer, and compliance workflows, enabling business launch with **0 critical post-release incidents**.
- **Automated** VM lifecycle operations and data center migration workflows through Spring Boot REST APIs, reducing manual engineering effort by approximately **40%** and lowering deployment-error risk.
- **Refactored** service lifecycle modules for scaling, renewal, and plan upgrades across **3+ service domains**, cutting duplicated business logic by around **30%** and improving maintainability.
- **Standardized** service-state and resource models across cloud and domain platforms, improving lifecycle consistency and reducing operational support issues caused by mismatched service statuses.
- **Owned** backend feature delivery from requirement clarification, database/API design, implementation, code review, CI/CD release, and production support with Product, Infrastructure, and Business teams.

TRUEDOC – Healthcare SPA Subscription Platform

- **Built** multi-tenant subscription modules for benefit tracking, enterprise subscription distribution, account linking, and service lifecycle management across healthcare and SPA products.
- **Migrated** SPA treatment subscriptions to a new prepaid-to-activated-to-usage lifecycle model with **100% data integrity** and no reported data loss during live transition.
- **Implemented** shared business-rule processing for cloud, healthcare, and SPA service lifecycles, reducing domain-specific custom code by approximately **25%**.
- **Shipped** internal REST APIs and JSF/PrimeFaces admin tools that enabled Operations teams to self-serve routine workflows, saving an estimated **5–10 engineering hours per week**.

STECH VN

Frontend Developer Intern – React / Next.js

Ho Chi Minh City, Vietnam

Sep 2023 – Jan 2024

- **Developed** a real-time communication web app using Next.js, React, and WebSocket, including chat, group messaging, and voice/video call interfaces.
- **Resolved 5+** real-time synchronization issues and built **10+** reusable UI components, improving product stability and frontend delivery speed.

TECHNICAL SKILLS

Backend: Java, Java Core, Spring Boot, Spring MVC

Spring Ecosystem: Spring Security, Spring Data JPA, Hibernate, JWT

Database & Caching: SQL, MySQL, MongoDB, Redis

Architecture & Principles: OOP, SOLID, Design Patterns, Microservices, Domain-Driven Design basics, Event-driven Architecture basics

Message Queue & Integration: Kafka (theoretical knowledge), RabbitMQ (theoretical knowledge), API Integration, WebSocket

DevOps & Tools: Git, GitLab CI/CD, Jenkins, ArgoCD, Docker, Linux, Postman, JUnit

Frontend: JavaScript, ReactJS, Next.js, JSF/PrimeFaces

Soft Skills: Problem Solving, Ownership, Team Collaboration, Requirement Clarification

CERTIFICATIONS & LANGUAGES

TOEIC: 755/990 Reading & Listening, Speaking 120/200, Writing 160/200

EDUCATION

Sai Gon University

Bachelor of Information Technology

Ho Chi Minh City, Vietnam

Aug 2021 – Oct 2025

- Relevant coursework: Data Structures & Algorithms, Database Systems, Software Engineering, Object-Oriented Programming.
